

REMARKS

Present Status of the Application

The Examiner's indication of allowance of claims 1, 3 and 4, and claims 6 and 7 would be allowable if rewritten into independent form including all of the limitations of the base claim and any intervening claims, is noted with great appreciation. Accordingly, Applicant has integrated the subject matter of claim 6 into claim 5 and canceled claim 6 without prejudice or disclaimer, in order to expedite an early allowance of the above-identified application.

Furthermore, Applicant would like to thank the Examiner for pointing out the informality for not including a statement that the substitute specification includes no new matter. Accordingly, Applicant respectfully resubmits the substitute specification and the Marked_Up copy thereof as separate accompanying pages, and hereby states that the substitute specification includes no new matter, as suggested by the Examiner. Reconsideration is respectfully requested.

For at least the foregoing reasons, Applicant respectfully submits that claims 1, 3-5 and 7 are in proper condition for allowance and reconsideration of this application is respectfully requested.

CONCLUSION

For at least the foregoing reasons, it is believed that all the pending claims 1, 3-5 and 7 of the present application are in proper condition for allowance. If the Examiner believes that a telephone conference would expedite the examination of the above-identified patent application, the Examiner is invited to call the undersigned.

Respectfully submitted
